About Title 1 Funds:

The federal government provides funding to schools that have a determined percentage of students who qualify for free or reduced lunch. These income eligible schools are provided services and opportunities by their school and school district using *No Child Left Behind* (NCLB-Title I) funds to improve student achievement. As Piscataway plans its services and possible opportunities with this financial support, we would like parental and community input in order to strengthen our programs. For your review prior to the meeting you may access the District/School Parent Involvement Policy and School-Parent Compact at our District Web site:
