November 2019

Dear Parents and Guardians:

Following last year's Strategic Planning Process, the Piscataway Administration developed and the Board of Education accepted, four strategic goals to guide the district from 2019-2024. These are the overarching goals that guide the district in everything we do – especially in creating yearly goals and action plans for the District and for each individual school. Our four strategic goals are:

**1: Student Achievement and Engagement**

Goal: To provide a range of opportunities that engage and inspire all students and allow them to reach their maximum potential.

**2: Community Engagement and Involvement**

Goal: To provide communication methods and engagement programs to all our stakeholders and families that will offer educational and involvement opportunities.

**3: Health and Wellness**

Goal: To promote student and staff wellness through programs, activities, and access to supportive resources.

**4: Facilities / Finance**

Goal: Maximize all funding resources to enable the district to provide and support a safe and engaging learning environment.

As we build our action plans, we look to you for support to achieve these goals for all Piscataway students and families. We'll keep you updated on our progress as we move throughout the year.

Sincerely,

**Dr. Frank Ranelli**  
Superintendent of Schools
