November 12, 2020

Dear Piscataway Families:

This letter is to inform you that a member of the Transportation staff has tested positive for COVID-19. All individuals that had close contact with this person have been notified in accordance with required contact tracing and are following the appropriate protocols. This positive case will be added to our dashboard as it is updated today.

The District continues to follow CDC, state, and local health department guidance in order to assure the health and safety of our community. Cleaning and disinfecting of all exposed areas has been completed and we are taking additional precautions to prevent the introduction and spread of viruses and other germs by cleaning frequently touched surfaces.

We are monitoring the status of the situation closely. We understand the level of concern regarding COVID-19 and encourage families and staff to continue following the Centers for Disease Control & Prevention promoted safeguards, such as:

- Staying home when you are sick;
- Washing hands often with soap for at least 20 seconds;
- Covering coughs and sneezes and properly disposing of tissues;
- Limiting close contact with people who are sick and not sharing food, drinks and utensils;
- Practicing social distancing (staying at least 6 feet apart);
- Wearing a face covering while in school; and
- Continuing to monitor your health for symptoms.

As always, we appreciate your support and cooperation. Should you have any questions about how we have prepared for situations such as this, please feel free to contact your building principal. Below are some resources that might be helpful.
