

**How can I resolve a problem my child is having at school?**

Elementary school parents should contact their classroom teacher or principal first. Middle and high school parents should speak with the child's teacher and/or guidance counselor. Contact the Assistant Principal for discipline-related issues and the Principal, if your problem is not resolved.

If you continue to have unresolved academic issues, contact the Assistant Superintendent of Curriculum and Instruction at 732-572-2289 x 2562. Other concerns should be addressed to the Assistant Superintendent of Schools at 732-572-2289, x 2522.
